

# **Hawai'i State Science Olympiad Policy Letter**

## **2009**

### **Number of Teams Per School**

Schools participating in the B and C Division Regional and State Olympiads may register no more than two (2) teams per tournament season.

Each registered team must submit appropriate state and national forms and fees (\$15 state; \$60 national) to be recognized as a participant at regional, state and national tournaments.

While teams may work and practice together prior to tournaments, each team must have a separate coach and separate students. Students on one team may NOT be members or alternates on the other team from their school.

The make up of the teams must follow the prescribed rules as outlined on page 16, section 1.

Students on separate teams during regional competitions may NOT be recombined into a single team for state and national tournaments.

Adopted: July 2008
